OUR VISION

The Life Center envisions communities where individuals and families make positive decisions for life and relationships based on the word of God.

In 1984, President Ronald Reagan designated January 22 as the first National Sanctity of Human Life Day. The date was chosen to coincide with the anniversary of the Roe v. Wade Supreme Court case of January 22, 1973, which legalized abortion in America.

Through the years, The Life Center and others have defended life for the unborn – the first of the inalienable rights affirmed by our country’s own Declaration of Independence. But as our vision statement suggests, we also see the need to support and reinforce the value of *every* life, and to stand against the challenges that inevitably come against them.

Every day we’re on the front lines of our communities, defending individuals and families and supporting their decisions for life and relationships. From the moment a woman walks through our doors, she and her unborn child are met with loving and practical support of the decision she’s made for life. Everything we offer her – from individual guidance and education to limited obstetrical ultrasound scans and supplies to care for herself and her baby through pregnancy and beyond – is provided absolutely *free of charge*. And our desire to support and defend fatherhood as foundational to the well-being of our communities is just as passionate. We also offer education, testing and treatment for sexually transmitted diseases through our STI Clinic in Midland.

We are also deeply mindful of the other casualties of abortion: the millions of silent wounded who continue to experience emotional trauma from their decision, no matter how much time has passed since it was made. We offer compassionate and confidential support for such women, to help heal, redeem and restore their lives.

Finally, we believe that teaching our youth to choose relationships rooted in values will help stem the tide of unplanned and unwanted pregnancies.

Please join us in standing today – and every day – for life.
